PRESS RELEASE

February 24, 2005

The Concerned Citizens of Wilbraham are pleased announce that their next meeting will be devoted entirely to the Minnechaug repair - replacement question before the Towns. Mr. Peter Salerno, Chairman of the Hampden/Wilbraham Regional School Board has agreed to Chair and Moderate the meeting. Additionally, joining Peter will be the Co-Chairmen of the Minnechaug Facilities Committee, Mr. Douglas Boyd of Hampden and Mr. John Lovejoy of Wilbraham. It is our understanding that there will be a brief review of the study process to date and the balance of the meeting will be a question and answer session. The meeting will be held at the Wilbraham Middle School located at 466 Stony Hill Road, Thursday, March 10, 2005 at 7:00PM. We are encouraging RESIDENTS from both Hampden and Wilbraham to attend. We owe it to ourselves to be as informed as possible regarding this large and costly project. A copy of the feasibility study done by the architectural firm of Dore & Whittier is available for your review at the libraries and I believe the Town Halls. It may also be seen online at the Hampden/Wilbraham Regional School District website at the following address: <http://www.hwrsd.org/>. We urge you all to attend to ask your questions and to express your opinions.
